

ScentProjector™:

Compact, Simple, Effective, Versatile, Portable

ScentProjector™ - portable, compact, versatile single scent system. Capable of fragrancing an indoor or outdoor space up to 3000 sq. feet (275 sq. meters) for up to 2 months.

Utilizing no-fuss natural ceramic or recyclable polymer scent bead cartridges, the unit can work alone or with multiple units to provide a highly cost effective way to add a memorable aroma to your space.

The compact & versatile ScentProjector™ has built-in timer/duty cycle features and is perfect for continuous scenting of retail, home and hospitality. With its ease of PC or show control system integration - home automation, video, media, aromatherapy and environmental scent ambiance is possible.

Timing control and control modes include individual on/off times or continuous. Speed Control dial allows setting of scent intensity and fan speed.

Easy to install and includes side flanges for mounting to wall brackets or fittings - Optional mounting bracket is available. The unit will sit easily on a shelf or table. Plug the supplied voltage transformer into a power socket and your up and running. Low maintenance and easy top access panel for loading new scents.
